

nest

¿Qué es? y ¿Por qué usarlo?

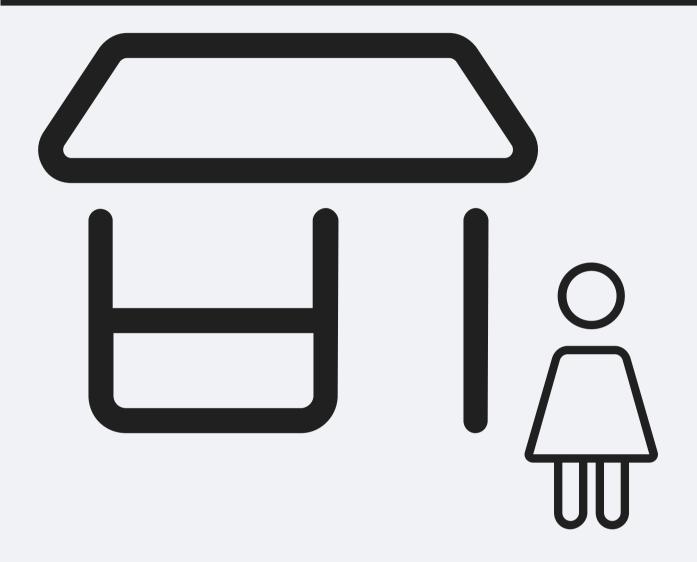

{dev/talles}

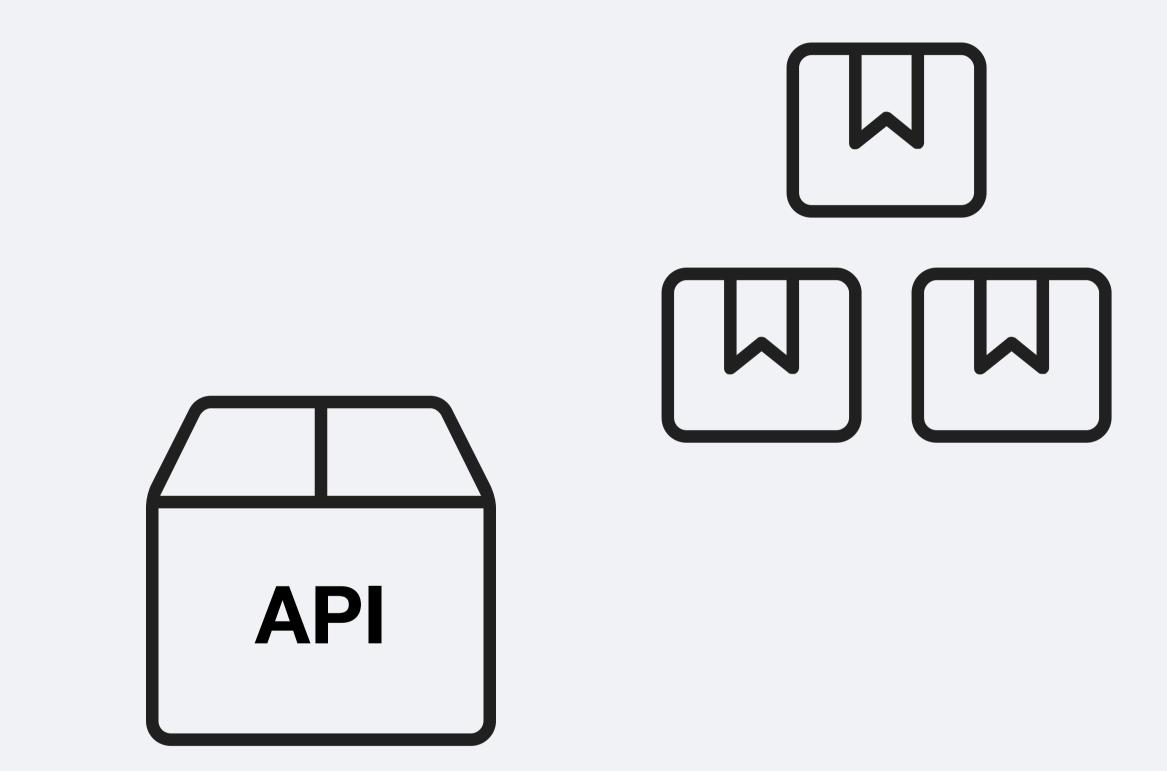

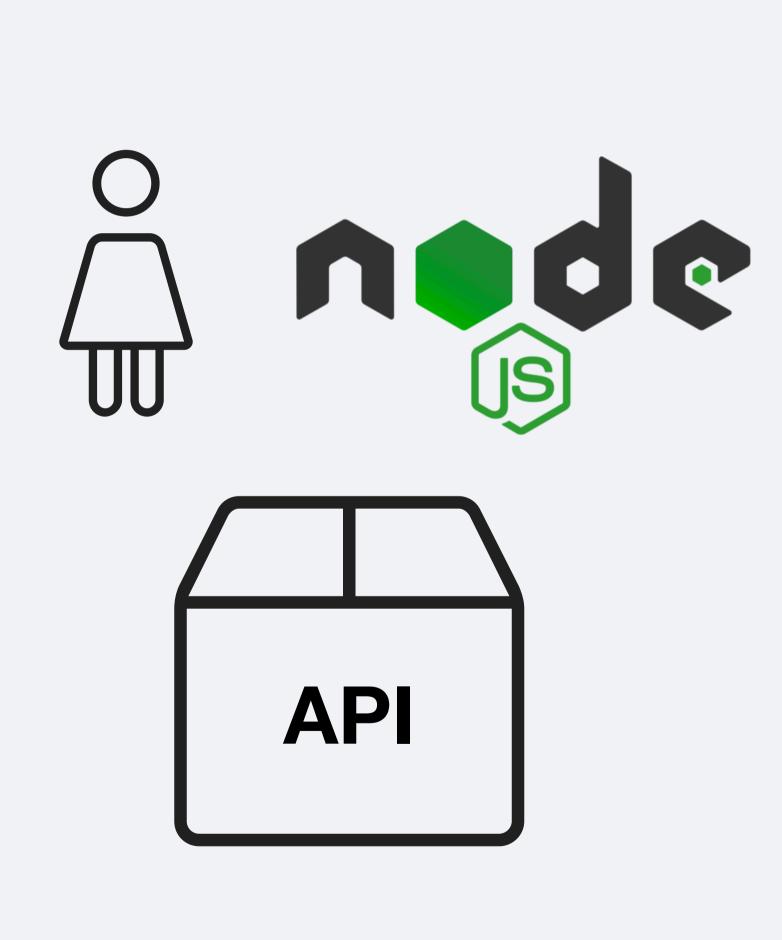

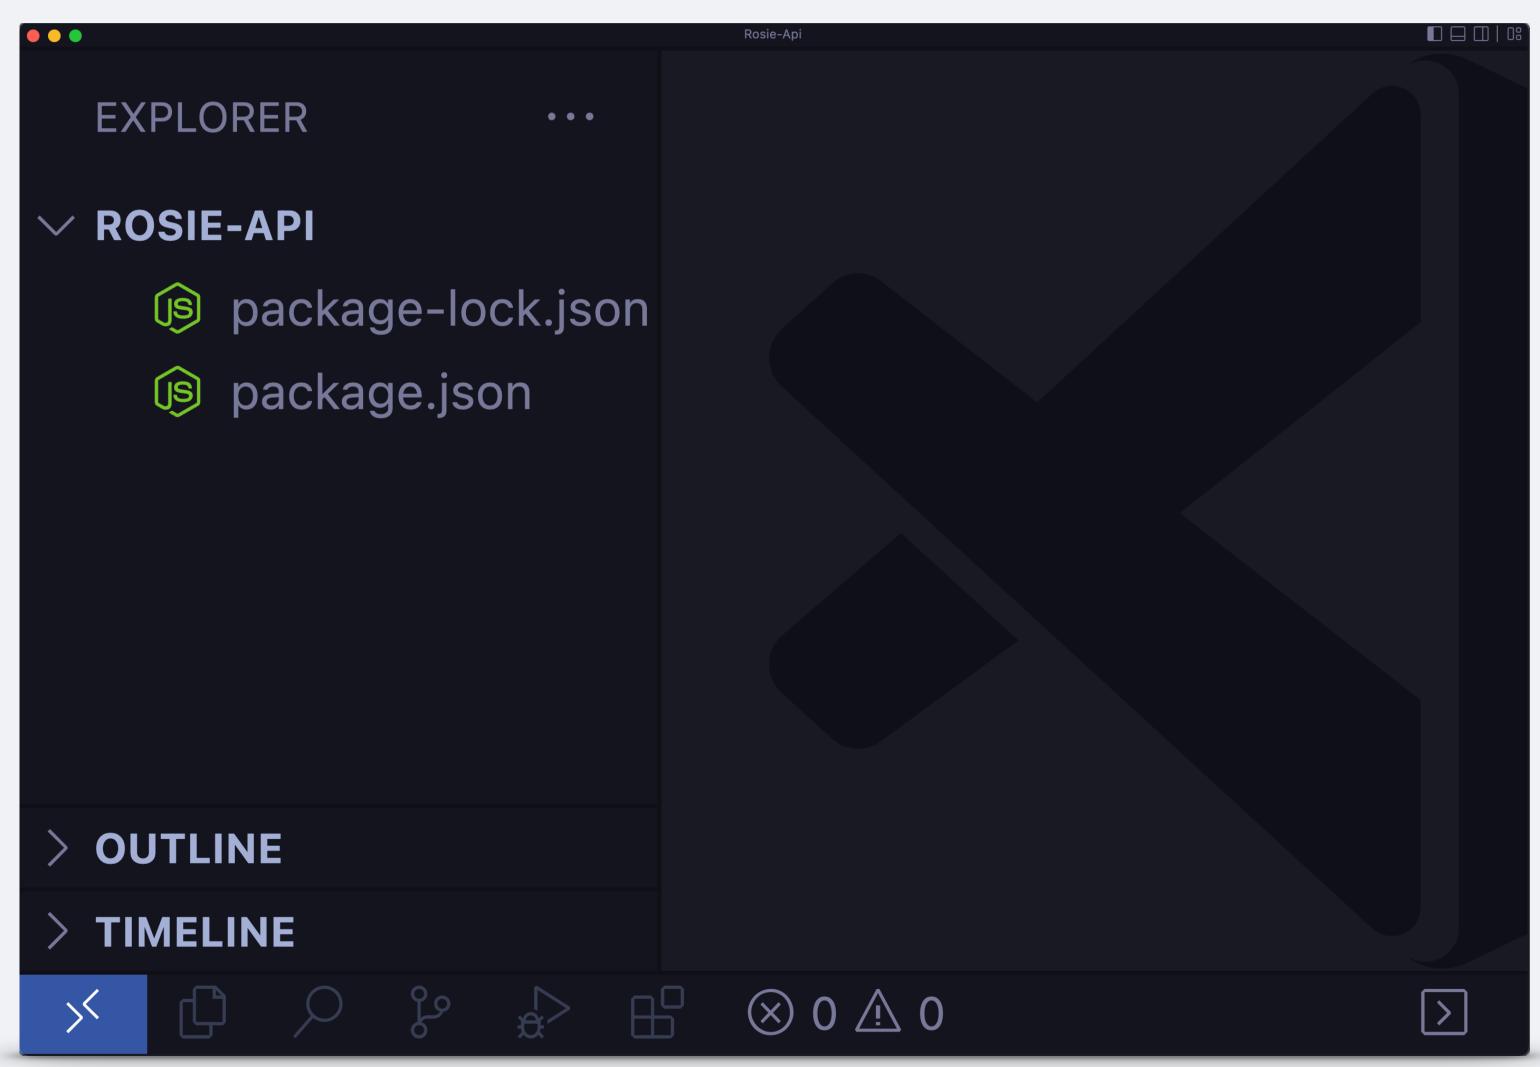

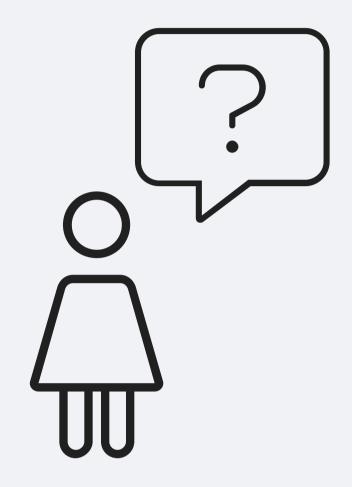

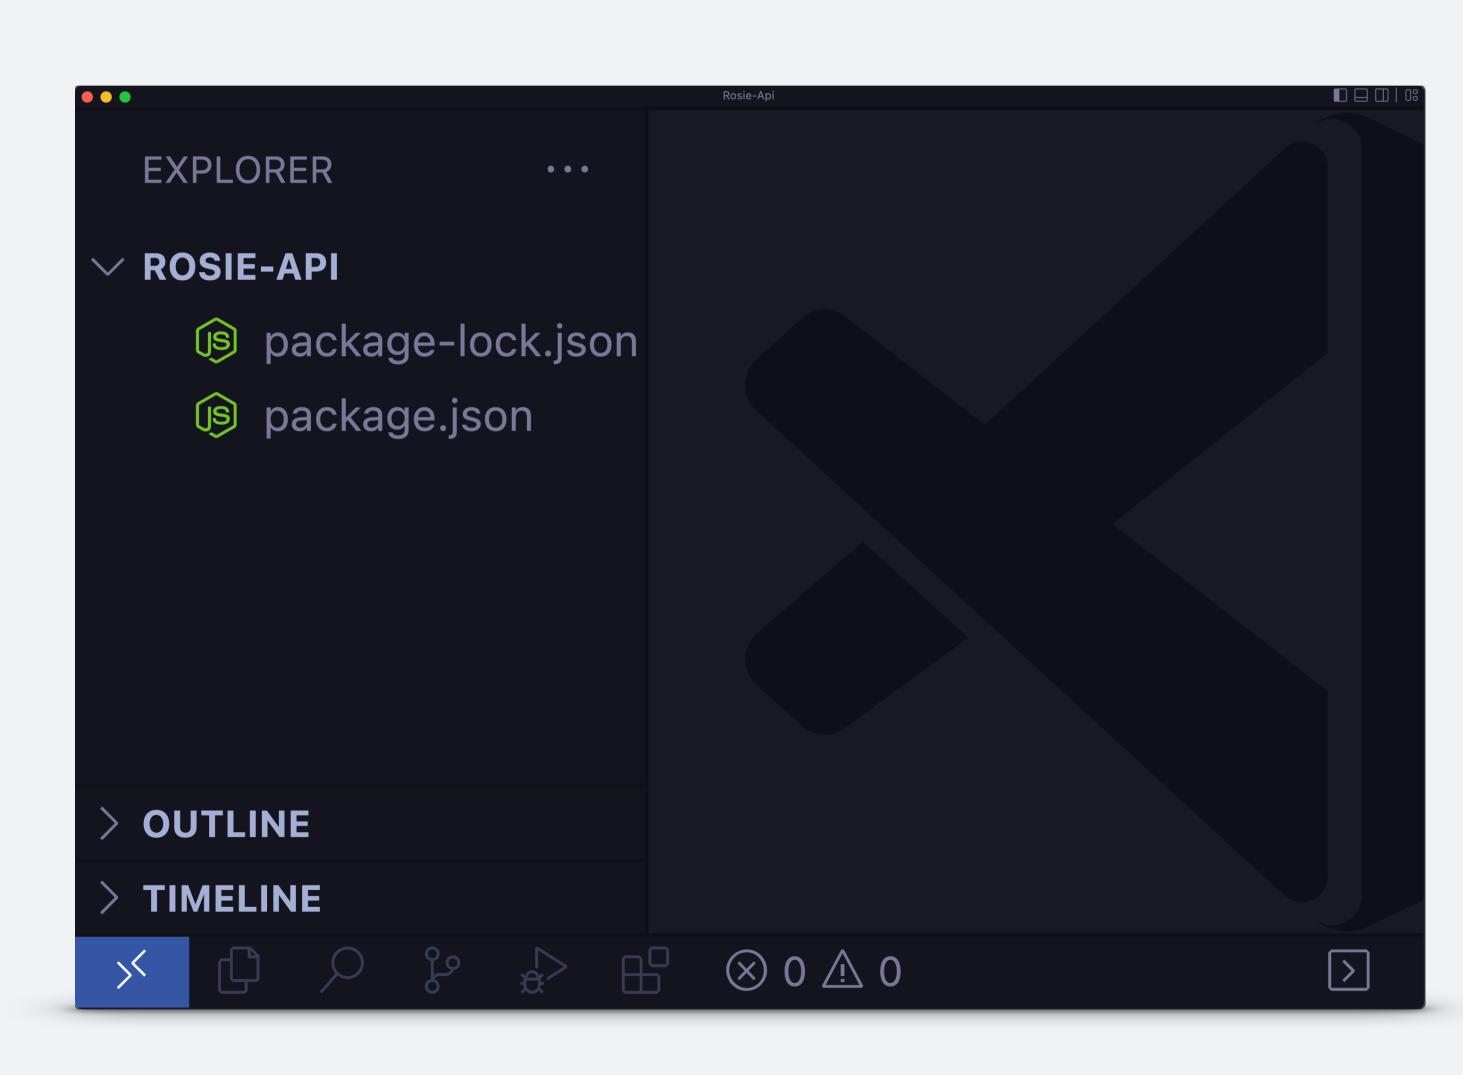

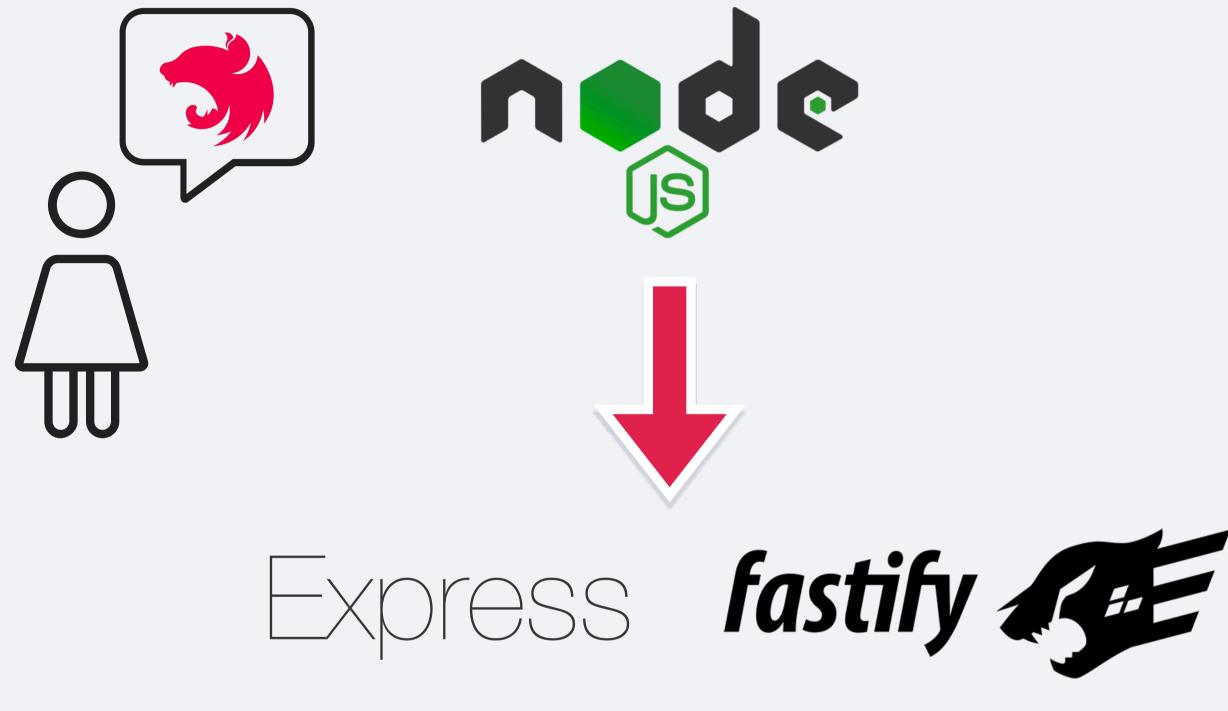

- ¿Cómo manejar las rutas?
- ¿Cómo manejar la autenticación?
- ¿Cómo? estructurar:
 - Controladores
 - Middlewares
 - Validadores
 - Excepciones
 - Etc...

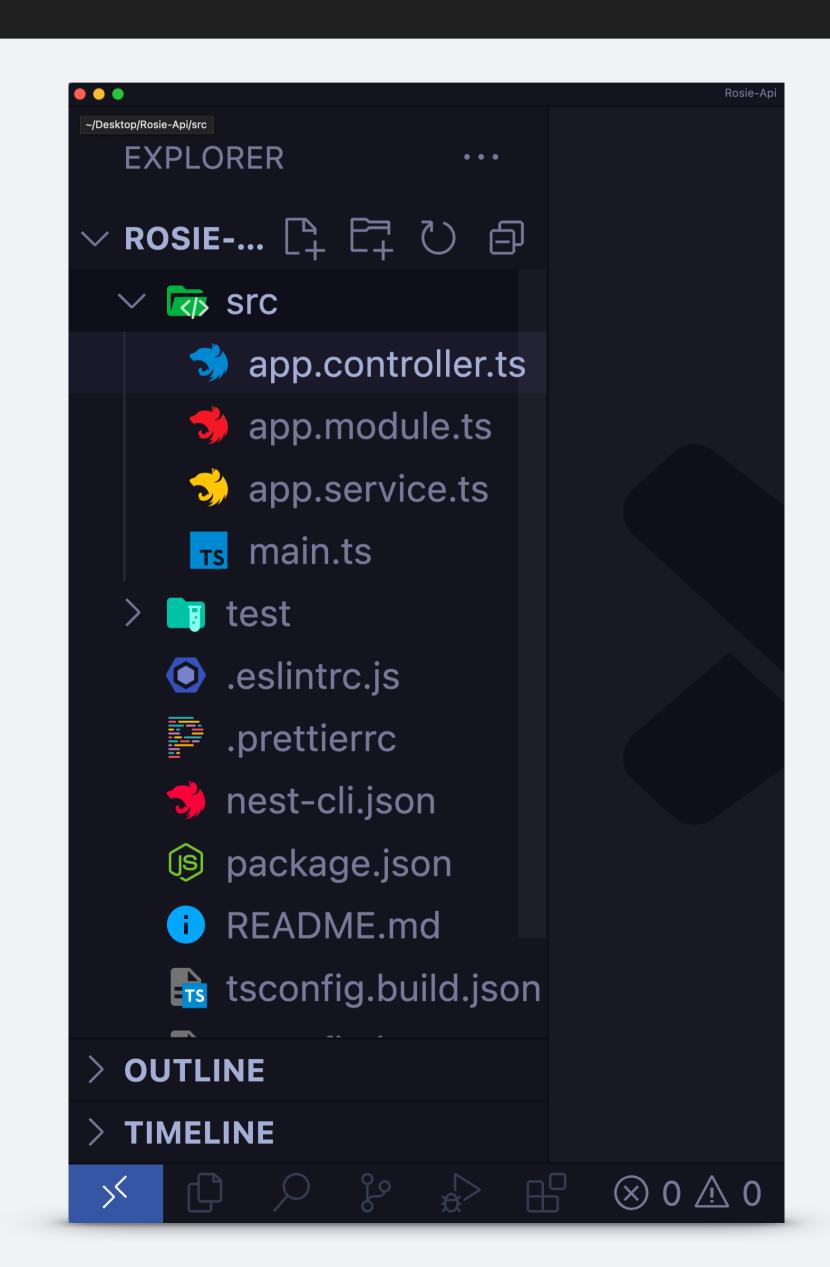

Nest es un marco de trabajo dogmático (opinionated)

Permite crear aplicaciones del lado del servidor con Node.js

Nest esta fuertemente inspirado en Angular
